

TIM PFEFFER

Tim is a Director of Photography based in Germany.

He discovered his passion for cinematography through still photography, art and documentaries. During his studies, he worked in several areas of camera & lighting. Tim enjoys collaborating with different directors and always aims to implement their ideas into a strong visualization with a naturalistic look and lots of contrast.

His years of experience as an editor help him to construct the film in his head even before it is shot.

In order to stay fit, Tim rides his racing bike through the rural areas of his city as often as possible.

Otherwise you will find him working on his oldtimer, a VW T3, or driving it through the streets of Europe.
